

GSA Authorized Inspector 3 Year RE-CERTIFICATION

Successful completion of this course requires that the student pass a written, as well as hands-on practical test on all aspects of inspecting and recertifying GSA approved security containers. Successfully passing this course earns the GSA certification of "GSA Certified Inspector".

Prerequisites:

You should have completed at least three days of formal instruction on GSA Locks. Familiar with installing, operating and programming FF-L-2740 locks as well as mechanical GSA locks. No instruction is given on these locks during this recertification course. You should also have experience working with GSA containers themselves.

Course Benefits

Covers KSA requirements for OPM
Grades 8 & 9 Locksmith
NEC 9583 Locksmith

Course Certification

GSA Inspector Certification

This course teaches you how to confirm if a GSA container or vault door is up to standards and can be labeled GSA approved. You will be given instructions on the latest regulations and updates to the inspector's course, covering all related topics including: inspection procedures, containers, vault doors and locks, drilling, repair and maintenance.

Course Length - 3 Days

Course Tuition - \$825

GSA Schedule - \$730

One Time Student Enrollment Fee - \$100
