

LKM7000 Certification

Spend the first half of the day learning the functionality and mechanics of this revolutionary DoD approved high security rim device. You will disassemble the Inside Base Plate as well as the Front Plate of the LKM7000 to get a better working knowledge of the lock and its parts. The second half of the day you will install an LKM7003 onto a mock door using our LKM7000 fixture. All tools and equipment are provided. Instructed by manufacturer trained LKM7000 technicians. After successfully completing the course Lockmasters will send you a certificate documenting your achievement and will add you, if requested, to this website as a trained installer.

Who Should Attend

Technicians who are seeking a better understanding of LKM7000 family of locks.
