

Professional Locksmithing (Pro Lock 1)

You don't need any experience or formal locksmith training to take this hands-on course. It is perfect for any age individual who wants to either begin a career or start a new career. We offer a number of complimentary courses to continually grow your skill set from Pro Lock 2, Auto Entry to our complete PUREAuto training. We have the training you need to succeed in the locksmith industry.

This course will provide you with the skills necessary to become a competent technician who can service, install, troubleshoot and masterkey commercial, industrial and residential key lock systems. These include proper woodworking techniques for non-destructive core drilling and mortising. You will also learn by-pass techniques used by professionals to defeat many key lock systems. These techniques include: lock picking, lock impressioning, lock bumping and tool specific lock by-pass.

Course Length - 10 Days

Course Tuition - \$2,900

One Time Student Enrollment Fee - \$100
