One Day Certification Addendum to GSA Safe & Vault Training

The GSA Safe & Vault Training contains a portion of the Inspector Certification. If you are enrolled in that course, the One Day Certification Addendum allows you to get GSA Inspector Certification Status in a single day!

This 1-day course teaches the student how to confirm if a GSA container or vault door meets the Federal Performance Specifications and can be GSA approved. The student will be instructed on the latest regulations and updates. The inspector's course, covers related topics including; inspection procedures, specification updates for GSA approved containers, vault doors and locks.

Successful completion of this course requires that the student pass a written, as well as hands-on practical test on all aspects of inspecting and recertifying GSA approved security containers.

Successfully passing this course earns the GSA certification of: "GSA Certified Inspector".

Inspector Certification Three Day Course

This course teaches how to confirm if a GSA container or vault door is up to standards and can be labeled GSA approved. You will be given instructions on the latest regulations and updates to the inspector's course, covering all related topics including; inspection procedures, containers, vault doors and locks, drilling, repair & maintenance.

Pre-requisite: You should have completed at least three days of formal instruction on GSA locks, and be completely familiar with installing, operating and programming the FF-L-2740 locks, as well as the mechanical GSA locks. No instruction is given on these locks during the three day recertification course. You should also have experience working with the GSA containers themselves.

You can now get Technician Certification or Inspector Recertification ONLINE if you qualify. Call us to get started: 866.574.8724.

 eCourse

Inspector Re-certification [3 Year Certification]

On **LSIeCourse.com** Re-certification is easy.

You are able to re-certify 6 months prior to your expiration date to 90 days following the expiration date.

Simply call 1-866-574-8724 and request GSA Re-certification update materials. You will receive, in the mail, a CD-ROM with the most up to date GSA manual and supporting documents.

Please note, the exam is open book/PDF.
